## PROJECTS

### Vtraxx

#### Description

- Web application that generates your top 10 songs on Spotify and displays it on a blank disc
- This is possible by implementing Spotify's API

## EXPERIENCE

### IT HELP DESK TECHNICIAN

#### CREDIT MANAGEMENT COMPANY

📅 12/2019 - 08/2020 📍 Pittsburgh, PA

#### Description

- Built user network profiles, reset passwords, and unlocked accounts in Active Directory
- Demonstrated knowledge of remote desktop connections, peer-to-peer file sharing, and other applications associated with remote IT assistance
- Participated in the launch of new start-up programs
- Collaborated with program personnel to perform suitability reviews by learning and implementing protocols and engaging client awareness
- Imaged and prepped dozens of laptops for current and new users during COVID-19 to create a work-from-home environment

### RADIO FREQUENCY ENGINEER

#### SAMSUNG

📅 10/2019 - 01/2020 📍 United States

#### Description

- Conducted stationary and mobility tests at work sites to check/verify throughput
- Collaboratively gathered the data for upload/download speed and ping time testing
- Utilized command prompts to navigate the software and to perform testing
- Performed speed tests using prototype 5G phones to gather data on device performance in populated areas
