PROJECTS

Vtraxx

📅 2020

🔗 <https://vtraxx.herokuapp.com>

Web Application that generates your most listened to Spotify songs in the past 30 days and displays it on a cassette tape

- This is possible by using Node.js and Spotify's API

EXPERIENCE

IT Help Desk Technician

Credit Management Company

📅 11/2019 - 07/2020 📍 Pittsburgh, PA

Description

- Built user network profiles, reset passwords, and unlocked accounts in Active Directory
- Demonstrated knowledge of remote desktop connections, peer-to-peer file sharing, and other applications associated with remote IT assistance
- Participated in the launch of new start-up programs
- Collaborated with program personnel to perform suitability reviews by learning and implementing protocols and engaging client awareness
- Imaged and prepped dozens of laptops for current and new users during COVID-19 to create a work-from-home environment

Radio Frequency Engineer

Samsung

📅 10/2019 - 01/2020 📍 United States

Description

- Conducted stationary and mobility tests at work sites to check/verify throughput
- Collaboratively gathered the data for upload/download speed and ping time testing
- Utilized command prompts to navigate the software and to perform testing
- Performed speed tests using prototype 5G phones to gather data on device performance in populated areas

Field Engineer

Giant Eagle

📅 07/2018 - 01/2019 📍 Pittsburgh, PA

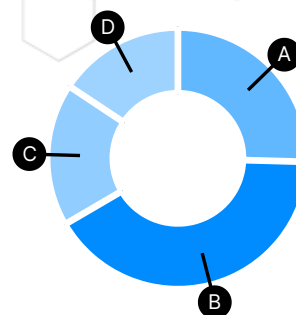

Description

- Performed installation and preventative maintenance on point of sale servers
- Leveraged skillset in software/hardware installation, troubleshooting, and capacity planning
- Tested machines after installation to maintain performance and safety
- Authored status reports and summaries of work performed for specific sites
- Presented reports to senior and concerned employees

SKILLS
